
SCHOOL DISTRICT NO. 36 (SURREY)

No. 5360

POLICY: COMPUTERS, FURNITURE, EQUIPMENT, SUPPLIES & VEHICLES STORAGE - SCHOOL & DISTRICT SITES

The Board believes school district personnel must implement programs to minimize the quantity of computers, furniture, equipment, supplies and vehicles stored on school and district sites while recognizing the costs of such materiel if later required for use, as well as, the risk of loss due to theft or incidents of fire and/or vandalism if kept on-site.

To achieve the Board's objective, the Secretary-Treasurer will implement appropriate programs to provide optimal use of its computers, furniture, equipment, supplies and vehicles, while providing protection of its assets and resources within available funding.
