
SCHOOL DISTRICT NO. 36 (SURREY)

No. 7245

POLICY: LEGAL ASSISTANCE

The Board recognizes there may be occasions when an administrator or manager requires personal legal assistance as a result of issues arising from carrying out his/her duties as an agent of the Board which is beyond the scope of coverage provided by the school district's insurance coverage.

Where the administrator or manager requests such legal support, the Superintendent of Schools will review the request and make a determination with respect to the matter. This policy does not cover indemnification. Indemnification is governed by Section 91 of the *School Act* and employment contracts.

This policy does not cover the use of legal services by senior management who are allocated budgets for legal fees.
