
SCHOOL DISTRICT NO. 36 (SURREY)

No. 9801

POLICY: CARE OF TEXTBOOKS, LIBRARY BOOKS, AND OTHER RESOURCE MATERIALS ASSIGNED TO SCHOOLS

Due to the importance of textbooks, library books, and other resource materials as aids in the learning process, and due to the high cost thereof, it is the intent of the Board that pupils and staff demonstrate the intrinsic and monetary value of such materials by ensuring proper care is taken to preserve them, that they may benefit the maximum number of pupils.

The responsibility for achieving this objective is delegated to school administrative officers who are responsible for the proper care and custody of textbooks and recommended learning resources, library books, and other resource materials assigned to their schools. In carrying out this responsibility, the Board authorizes the charging of damages for lost, destroyed or damaged learning materials.
