

IMPLANT AWARENESS SOCIETY - VOLUNTEER POSITION

The I.A.S. Implant Awareness Society became a registered society in Victoria, British Columbia on December 14, 1994, #S-32925, and registered in Ottawa Ontario, for tax-exempt status on February 6, 1996, # 89321 2373 RR0001

The Implant Awareness Society (IAS) is a not-for-profit registered society. Our goals are to help the general public gain knowledge and make an informed decision about breast, bicep and chin implants.

The following list outlines some of the tasks students will be asked to assist the society in performing. The Implant Awareness Society personnel will always be in attendance, with the students assisting. Students are not being asked to take charge.

- Help organize speaking engagements to be held within the community or at the school.
- Create posters on a computer to advertise information sessions.
- Greet attendees and man the sign-up table at the information sessions.
- Take pictures of the audience and speaker during the presentation.
- Create video and upload to U-tube with access on our website:
