

Planning

Post-Secondary VS. Post-Secondary Showdown!!!

Using *Microsoft Word*, create a **professional** and **organized** looking poster that compares two post-secondary institutions/programs. Ideally, the programs should be related to your chosen career/area of interest. You may use text, googled images, clip art, auto shapes, borders, colour, etc. to “jazz up” your poster. You are to design the poster to look “hip” and “cool” but it must also meet the criteria listed below.

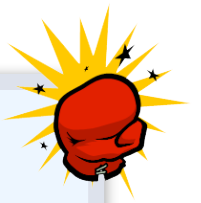

- ★ Title
- ★ Headings that catch the viewers eye
- ★ Customized Fonts/Colors
- ★ Use of auto shapes, clip art, word art, graphics etc.
- ★ Compare the items found below

Content Criteria: You must compare these items in detail:

- ★ Location and Learning Environment
- ★ Admission Requirements
- ★ Cost of Tuition
- ★ Programs Offered
- ★ Length of Training
- ★ Exit Credentials (e.g. Certificate, Diploma, Degree, etc.)
- ★ Employment Prospects
- ★ Summary and Declaration of “Winner”

Where to Look?: You may use the following websites for tracking down information, but may also wish to ask older siblings/friends, or even use the phone to call your chosen institutions. For that matter, you could even go there for a tour (bonus marks for proof of this):

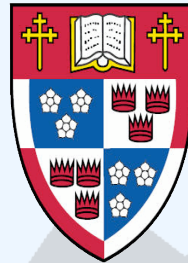

- ★ www.educationplanner.bc.ca
- ★ Institution Websites (e.g. www.ubc.ca, www.bcit.ca, etc.)
