

Homestay Information

The Surrey School District does not provide homestay accommodation, but refers clients to a homestay service provider for assistance. The District is committed to ensuring homestay arrangements comply with the BC Human Rights Code and requests or preferences expressed by international students which violate the Code will be rejected by homestay service providers. The District recognizes international students come to Canada to improve their English language skills and English must be the primary language spoken in the home of all of the below listed homestay hosts.

International students seeking a host family or for local Surrey and White Rock families interested in becoming a host family, please contact these companies directly:
