

The Surrey Board of Education Mission, Vision, Values and 2009/10 Goals

(Page 1 of 4)

Our Mission:

Through quality teaching and learning, we commit to engaging our students in their growth as individuals and in their development of the knowledge, skills and attributes necessary to contribute to a healthy, democratic and diverse society.

Our Vision:

THE SCHOOLS OUR CHILDREN DESERVE

Our schools are committed to providing quality service in responding to the diverse needs of our learners and ensuring that they experience a high quality, well rounded education. Schools strive to fulfill this commitment by working in partnership with parents and the community. The Surrey School District supports its schools in:

Providing Quality Education

Our district supports the healthy aspirations of the well educated student and all that this exemplifies. We promote the development of students in becoming:

- Creative thinkers, innovators, and problem solvers
- Effective communicators
- Literate and numerate
- Skillful at accessing, evaluating, synthesizing and presenting information
- Effective collaborators
- Socially responsible
- Flexible and able to adapt to change
- Committed to personal health and fitness

Developing Socially Responsible Citizens

Parents, schools, and communities share the responsibility for students' personal development. Socially responsible individuals are able to meet life's challenges with courage, confidence and optimism in a way that conveys respect for themselves and others. Through authentic learning experiences, schools strive to cultivate these attributes which are essential to the development of leadership skills and active participation in a democratic society.

Supporting Our Aboriginal Learners

Aboriginal learners achieve greater success when they feel a strong sense of belonging and a valued place in the school community. Our schools are committed to further developing a deep respect for Aboriginal learners' experiences and for the importance of heritage, extended family, culture and tradition that play such a large part in supporting each learner. Success for Aboriginal students requires a commitment from and collaboration among departments throughout the school district to ensure there are services in place to increase the quality of the learning experiences for our Aboriginal students.

Preparing Our Graduates for the Future

Curiosity, aptitude, and learning preferences play significant roles in students' life choices and career paths. Our schools open "pathways of possibility" for students by providing a broad range of programs and nurturing talents and interests. They are responsive to the changing expectations of and opportunities in the work world.

Helping Parents Support their Child's Learning

Our district sees parent involvement as vitally important to student success. Parents support their child's learning in a variety of ways, which change over the course of the child's experience in school. Evidence indicates that parent involvement must be nurtured and celebrated so that parents recognize themselves as valued partners in the learning process.

- Parents must perceive schools as welcoming environments that support their involvement.
- Sustainable structures must be in place that support an effective working relationship between parents and the school.

Promoting Broader Community Involvement

Schools rely upon the supports of the larger community in order to address the diverse needs of students and their families. They provide services and supports that increase the strength of our communities.

- Partnerships involve shared ownership focused on common goals.
- The development of community is enhanced through the expanded role of the school and its community partners.

Supporting Professional Learning

Student learning and achievement are enhanced by quality teaching and skillful leadership. Professional learning builds individual and system capacity through attention to educational research and focused inquiry. Surrey schools support high quality professional learning that is:

- Focused on student learning.
- Comprehensive and sustained over time.
- Embedded in the daily work of educators.
- Collegial and collaborative.

The Surrey Board of Education Mission, Vision, Values and 2009/10 Goals

(Page 2 of 4)

The Surrey Board of Education assumes its responsibility to provide leadership and direction to School District No. 36 (Surrey). In so doing, the Board subscribes to the following statements of beliefs and guiding principles.

Our Values and Beliefs:

We believe that:

- ✓ *schools are for learners*
- ✓ *education is a shared responsibility among home, school and community*

We value:

- ✓ *the achievement of success in teaching and learning*
- ✓ *the accomplishments of our learners*
- ✓ *the role of parents in the education of their children*
- ✓ *collaboration and cooperation in setting, achieving and evaluating our stated goals and making adjustments to practice based on results*
- ✓ *the contributions made by all employees, parents and the community*
- ✓ *the involvement and support of our diverse communities*

We seek to:

- ✓ *instill in learners an appreciation of learning as a lifelong process*
- ✓ *prepare each learner to assume responsible citizenship, community and career roles as adults in society*

We commit to:

- ✓ *decision-making that is in the best interest of all learners*
- ✓ *safe and healthy learning environments*
- ✓ *accountability, both educational and financial*
- ✓ *being responsive to the needs of our community*
- ✓ *appropriate and equitable allocation of financial resources*

We promote:

- ✓ *acceptance and respect for diversity*
- ✓ *dynamic leadership at all levels of the organization*

The Surrey Board of Education Mission, Vision, Values and 2009/10 Goals

(Page 3 of 4)

District Goals for 2009/2010:

The goals outlined below represent the District's highest priorities for 2009/2010. As always, there is also other key work that continues.

Providing Quality Education

The District will support student success through continued attention to:

- Improving Reading, Writing, and Numeracy. Particular emphasis will be placed on initiatives that focussed on closing achievement gaps for Aboriginal students, for boys, for students who have special needs or language challenges, and for those who are disadvantaged by poverty.
- Improving students' attention to physical fitness and their understanding of the factors influencing health decisions.

Developing Socially Responsible Citizens

The District will support schools in their focus on positive citizenship, with a specific emphasis on:

- socially responsible behaviour
- safety, well-being and conditions for student success
- leadership skills in contributing to classroom and community.

The District will take a provincial leadership role in developing educational resources that support safe and caring schools.

Supporting Our Aboriginal Learners

All aboriginal programs, support structures, and resources will be completely aligned with the District's improving student achievement goals and initiatives focussing on improving the graduation rates of our aboriginal learners.

Preparing Our Graduates for the Future

Our District will continue its focus on improving the six year completion rate for secondary students by:

- Ensuring appropriate and effective transitions at key points in the K-12 learning journey
- Providing a continued strong emphasis on career and education planning and goal setting
- Providing a wide range of alternate pathways leading to school completion
- Ensuring an improved case management approach for students with learning challenges
- Increasing capacity to respond to learner needs through differentiated instruction and quality assessment

Our District will support the development of secondary school collaborative teams consisting of personnel from Counselling Departments and Career Education Departments for the purpose of:

- providing high quality, academic and career counselling;
- empowering students to make thoughtful decisions about career goals;
- increasing student awareness of a range of post-secondary options and building their independence to research opportunities and prepare for such transitions;
- increasing enrolment in trades, technical and apprenticeship programs; and
- teaching students about those employability skills and personal qualities that contribute to success in the workplace and in post-secondary education.

Helping Parents Support their Child's Learning

The District will assist schools in:

- Developing strategies to help parents improve their capacity to support their children in their learning.
- Improving the quality of communication with parents about their children's progress.

The District commits to enhancing communication with parents and the community by:

- Continuing to improve information services for parents through our District web site.
- Pursuing a variety of other means to ensure that key messages about district priorities, initiatives, programs, and services are communicated effectively.

Promoting Broader Community Involvement

In partnership with the City of Surrey and several community agencies, the District will continue to take a lead role in developing an expanded community-school partnership aimed at serving the various "town centres."

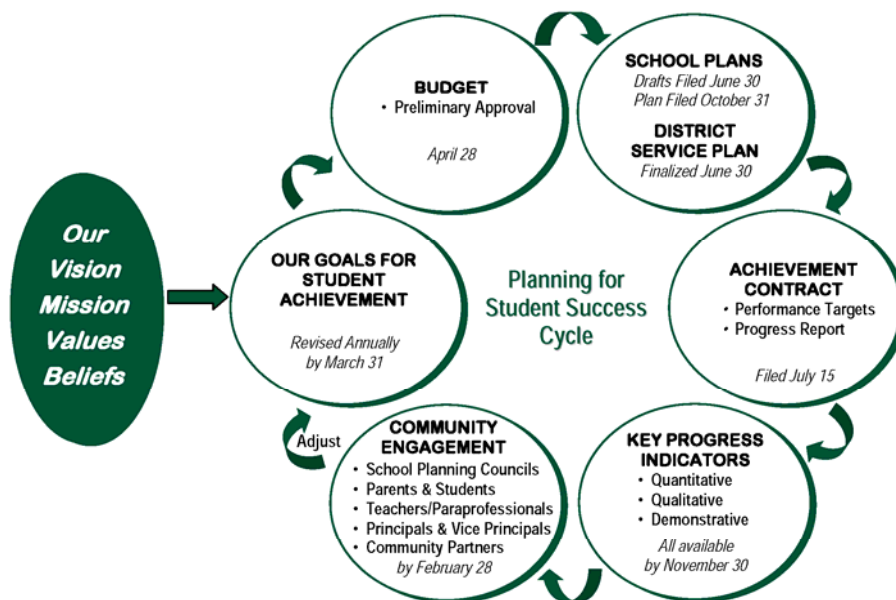

Supporting Professional Learning

The District will continue to provide training and in-service to build the capacity of Learner Support Teams, teachers, and special education assistants to support differentiated instruction and respond effectively to the diverse needs of students.

The Board is committed to aligning personnel and financial resources in support of these goals. It is also committed to monitoring and improving all of its programs and services by ensuring stability and sustainability, fiscal and operational effectiveness, and being responsive to growth and change.

The Surrey Board of Education Mission, Vision, Values and 2009/10 Goals

(Page 4 of 4)

Renewing and Affirming Our Vision:

During the spring of 2009 our District engaged with more than nine hundred parents, teachers, students, school administrators and community partners in a process to affirm and renew its vision of what schools need to pay attention to in order to prepare students to have successful, productive and meaningful futures. This work built on the larger, more extensive process that was undertaken during the 2003-2005 school years.

The resulting vision, "The Schools Our Children Deserve" will provide the District and its schools with valuable and necessary guidance as it develops its short and long term goals for improving student achievement and plans for growth and change in an ever changing community and society.

Process for Establishing School District Goals:

The Surrey School District has established a cyclical process for developing its student achievement goals and planning for improvement which begins with an analysis of student achievement, survey, and demographic data as well as an extensive series of community engagement activities. Activities have included:

- regional meetings with School Planning Council, and Parent Advisory Council representatives, and
- a series of focus group sessions and liaison meetings involving parents from various ethnic groups, post-secondary representatives, employee groups, students, members of the business community, and other community partners.

As indicated in the diagram this cycle concludes with the filling of the achievement contract with the Ministry of Education.

The Surrey Board of Education thanks the many people who have participated in the process and have provided much valuable input into the development of the District's 2009/10 goals. More specific information pertaining to the goals may be found on the District's website at www.sd36.bc.ca.
