**[http://events.sd36.bc.ca/  
summer2010numeracy/](http://events.sd36.bc.ca/summer2010numeracy/)**

**INCLUDES:**

**continental breakfast,  
refreshments  
and lunch**

**A SESSION FOR K-7 TEACHERS**

**IN THIS SESSION YOU WILL:**

Our new curriculum requires our students to demonstrate and communicate their mathematical understanding. What tools can we use to support all learners in developing deep mathematical understanding? Come prepared to explore and discover how mathematics can be uncovered in your classroom.

**BIOGRAPHY**

Carole is a teacher leader working with K - 12 teachers across the province to promote mathematical thinking and learning. An author and international presenter, Carole focusses her professional development on good questions, differentiated instruction and authentic assessment practices, modelling these instructional strategies with students in the classroom.
